Reading list of economic sociology

Compiled by Patrik Aspers, Jens Beckert, Guido Möllering, and Geny Piotti

Revised version September 2007

The list is divided into 18 sections, each of which covers a substantial field of research. Books dominate the reading list, but shorter articles summarizing the main arguments of these books can usually be found. Articles are included in cases where books covering the same issues are not available. In the readers some of the texts mentioned here are reproduced. The readers provide a very good overview of this field, and it is also in these one can find reprints of many of the most important, classical as well as contemporary, contributions in economic sociology.

Useful internet site

http://econsoc.mpifg.de

This site is the most extensive site of economic sociology, and home of Economic Sociology, European Electronic Newsletter.
